Proceedings of the American Society For Engineering Education

Contents of Volume 71

Your President Reports	Glenn Murphy	1
What's Going On in ASEE	W. Leighton Collins	4
Hopes and Aspirations	Kurt F. Wendt	6
Resources for Engineering Education—A National Picture		8
ASEE AWARDS and Honorary Membership Citation		12
The Lamme Award		13
The George Westinghouse Award		14
The Vincent Bendix Award		15
The Curtis W. McGraw Award		16
Engineering Education Abstracts		17
What Went On in ASEE Headquarters		19
Annual Meeting Abstracts		22
Objective Criteria in Ceramic Engineering Education		41
Evolution of Graduate Education in Engineering	J. M. Pettit and J. M. Gere	57
Recommendations on Faculty Salaries Charged to Government Contracts		63
The Institute for Certification of Engineering Technicians	M. A. Williamson	64
Theory of Structures and Structural Steel Design as Taught in Undergraduate Civil Engineering	Mete Yalcin	66
A New Approach to Engineering Education in Brazil	A. C. Fonseca and D. R. Reyes-Guerra	70
A Clearer Voice	P. T. Bryant	73
ECAC Committee on Young Faculty Affairs—Final Report		74
Report from the Councils		79
Biomechanics—A Multidisciplinary Field for Engineers	L. M. Patrick	89
ECPD Accreditation of Graduate Work in Engineering—The Industrial Viewpoint	Monroe W. Kriegel	98
Experimental Engineering		
Models for Shell Structures	Robert J. Hansen	102
Transparent Flexible Models	Raymond J. Stith	105
Mechanics Division Bulletin		107
Curricula in Solid Mechanics	H. Liebowitz and J. M. Allen	108
The "Falling Pencil" Problem	Michael D. Greenberg	118
ASEE Publications and Reprints		120

Officers Nominated for 1964-65 121

Engineering Degrees (1962-63) and Enrollments (Fall 1963): Preliminary Report — Harold A. Foecke 123

Engineering, A Profession — Ralph A. Morgen 124

Commission on Engineering Education Sponsoring Engineering Education Exhibit at University of Maine 126

Fourth Summer Institute on Effective Teaching 127

A Post-Doctoral Preceptorial Program — Bruno A. Boley and Jewell M. Garrelts 129

ASEE Audit Report for the Year Ended June 30, 1963 131

ASEE Yearbook

Organization of the Society 135

Chart of Contract Study Management 135

Officers and Staff 136

Officers of Councils, 1963-64 137

Society Committees, 1963-64 141

Officers of Divisions, 1963-64 144

Officers of Sections, 1963-64 146

Officers of Branches, 1963-64 147

Representatives of the Society to Other Organizations 148

Geographical Listings of Engineering College, Technical Institute, and Affiliate Institutional Members by Sections 149

Society Records

Past Officers and Council Members 150

Members of Councils with Terms Expiring in 1963 151

Awards and Recipients 152

Annual Meetings of ASEE 153

Engineering Summer Schools, 1930-63

ASEE Meetings 156

Constitution and Bylaws 157

Bylaws of the Councils 160

Use of Directory Data 168

Membership Directory

Institutional Members 1

Individual Members—Alphabetical 15

Individual Members—Geographical 98

Individual Members—Divisional 142

Summary of Membership Totals, 1893-1962 174

Science and the Engineer — Maurice A. Biot 169

Clebsch's Method for Beam Deflections — Walter D. Pilkey 170

ASEE in Maine's Vacationland 175

The Minuteman and Education — Howard W. Barlow 179

Semi-Notes: An Aid for the Engineering Lecture — Glen W. Zumwalt 182

Some Whys of Engineering Ethics — C. J. Freund 186

The Need for a Strong Surveying Program in the Civil Engineering Curriculum — Carl F. Meyer 188

Eighth Annual Compilation of Programs for Employing Faculty Members in Industry, Summer, 1964 191

Experimental Engineering

A Cesium Plasma Diode — Bert Pariser 196

Kallsen Joins ASEE Staff 201

Programmed Instruction and Science Teaching — Cyrus Adler 202

Engineering Enrollments and Degrees—The Annual Report — Harold A. Foecke 205

Some DATA on ASEE Membership — Harold A. Mathis, Lois R. Mathis 222

Mobile Classroom Dynamometer — Col. John D. Billingsley 224

Accredited Curricula Leading to First Degrees in Engineering Techology in the U. S.—1963 226

Crystallographic Models — Dr. Theo. C. Pilkington, W. E. Hammond 230

The Role of a University Laboratory Engaged in Classified Research — Arnold Addison 231

The Federal Government and Engineering Education — William G. Torpey 233

Compromise and Decision Making: Humanities and Social Sciences Education in Engineering and Other Professional Fields — James O. Smith 235

Engineering Dropouts—One Step to Help Solve the Problem — David R. Reyes-Guerra 238

An Introductory Modern Physics Course for Superior Students in Engineering — N. Ashby 240

Design and Analysis: A Conflict of Interest? — John R. Dixon 243

Fulbright-Hays Program Lectureships 245

A Program in Interdisciplinary Research and Graduate Study — Daniel Howland 246

Removing Emphasis on Grades — Norman Balabanian 250

Hydraulics in Civil Engineering Curricula — D. M. Crim, Henry M. Morris 252

Special Opportunities in the Teaching of Non-Majors — J. M. Allen 256

What Do You Weigh? — Eugene Dutton 258

The Professional Approach to Engineering Education — Thomas J. Dolan 261

Ethical Responsibilities of the Engineering Teacher — C. J. Freund 265

Improvement of Teaching in Engineering — Anthony J. Giordano 268

A Workable Program for Teacher Improvement by the Local ASEE Branch — Gordon H. Flammer 271

In-Service Training of Engineering Teachers — John E. Lagerstrom 273

Highlights of ECPD Executive Committee Meeting 277

Education for Water Resources Planning — Rolf Eliassen 278

Experimental Engineering

On A De Laval Nozzle and a Fanno Tube — J. H. T. Wu and R. Knystautas 281

Illustration of Photoelasticity Principles Using Elementary Polariscopes — A. J. Durelli and V. J. Parks 290

Moment-of-Inertia Demonstration — Paul Penfield, Jr., and Dean C. Karnoff 295

The Role of Engineering in the University — Henry T. Heald 297

The ECRC Program Is Designed to Get YOU to Participate 299

Engineers in the Peace Corps — T. C. Dziadulewicz 300

Aids to Engineering Education 301

Disorganized Charm at the Annual Meeting 302

Vocational Interests of Engineering Seniors — Edward J. Yarosz 304

Recruitment Advertisements for High School Students — Harold F. Mathis and Lois R. Mathis 306

Experimental Engineering

A Multipurpose Vibratory Model — Ali Seireg 308

A Generalized Electromagnet — L. W. Matsch 314

Mechanics Division Bulletin

An Evaluation of Vector Analysis in Engineering Mechanics — A. B. Asch 320

The "Falling Pencil" Problem — M. Afzal Kazi 322

Trigonometric Series and Structural Analysis — Thein Wah 324

Notes on the Bending of Curved Beams	Robert W. Little	326
Freshman Grades and Educational Decisions	Warren W. Willingham	329
The Role of Engineering as a Learned Profession	J. Douglas Brown	332
New Editor for ASEE		334
Laboratory for Simulation of Mechanical Systems	Arthur D. Brickman and William H. Park	335
The "Model T" Computer	W. F. Ames and J. A. Robinson	338
Teaching Digital Computer Programming	E. C. Olsen, Wendell Pope, and Bruce O. Watkins	344
The Socratic Method: Extrapolation to Engineering	Martin I. Taft	346
The Discipline of the History of Technology	Lynn White, Jr.	349
Imagination Can Save the Mechanical Engineering Laboratory	Bernard D. Wood	352
A Demonstration Meter Panel	George McPherson, Jr.	354
ECRC Executive Board Meeting		356
A Proposition Relating to Force Systems in Equilibrium	R. A. Boorne	356
Report to the Society on "The Goals of Engineering Education"	Eric A. Walker	357
Some Models of Use in the Teaching of Structural Mechanics	R. Shepherd	359
The History of Nuclear Engineering Education	Philip N. Powers	364
Report on Objective Criteria in Nuclear Engineering, 1962-64		371
Index for 1963-64		381
ASEE and the Development of the Technical Institute Movement	Karl O. Werwath	385
Needs for Technicians	William G. Torpey	386
The Product of Engineering Technician	T. N. Trolsen	388
Technicians at Sandia	George W. Elliott	389
Technicians at Du Pont	R. A. Emerson	390
Technicians at Bell Laboratories	F. D. Leamer	390
Technicians at Republic Aviation	L. P. Wenk	391
How Much Does the Graduate Engineering Technician Make?	Robert Hays	391
Pre-Technology Program for High Schools	Eugene W. Smith	392
Characteristics of Excellence in Engineering Technology Education	James L. McGraw	394
The Role of ECPD	G. Ross Henninger	397
History of Engineering Technology	Ken August Brunner	398
Technical Education Internationally	Walter M. Hartung	399
Engineering Technology and the Government	Congressman John Brademas	402
Certification of Engineering Technicians	Merritt A. Williamson	404
History of the James H. McGraw Award in Technical Institute Education	H. Walter Shaw	406
